

WoodPlus Coatings  
Ontario, Canada

November 12, 2007

Dear Sir/Madam:

I am absolutely amazed at the excellent condition of my deck which I coated with WoodPlus in 2003. After years of frustration in using other well-known products, I must say that yours has exceeded them in overall performance and durability.

What really strikes me about Woodplus is the fact that it is extremely environmentally friendly, easy to apply, and only requires the use of "one" product. The clear instructions you provided were instrumental in helping me understand that surface preparation is key to achieving desired results.

I have since recommended WoodPlus to many friends and neighbours who were also quite impressed with the look of my deck. One neighbour told me that this is the best wood stain product he has come across in his 30 year career as a painter. Needless to say he has used WoodPlus on his own deck and so have several other neighbours since.

Thank you again for this wonderful product and best of luck in expanding its availability to the rest of the world!

Regards,  
Jean Paradis
